

MIZU CLIENT

BETA END USER LICENSE AGREEMENT (EULA)

Last Updated: July 27, 2026

TL;DR – Quick Summary

Don't want to read all the legal text? Here is a quick overview. (Note: By accepting in Discord, you agree to the full document below!)

- **What you CAN do:** Fully use all features for personal gameplay, and create monetized content as long as credit and our Discord invite link are clearly visible.
- **What you CANNOT do:** Share your account, leak the client, decompile, modify/remix, crack our authentication, or distribute modified builds.
- **Keep in Mind:** Use at your own discretion. We are not responsible for Minecraft account bans or game crashes.
- **Access, Exemptions & Notices:** Admins can grant written waivers for specific rules. We can revoke access or update terms at any time. Pings/DMs on Discord serve as valid legal notices.

1. Acceptance of Terms & Scope

This End User License Agreement ("EULA") is a legal agreement between you ("User") and Mizu Client Management ("Mizu", "We", "Us"). This agreement governs your access to and use of the **Mizu Client** software ("Software"), an injectable utility client for Minecraft Bedrock Edition.

By clicking "Accept" in the designated EULA channel within the official Mizu Client Discord server or by downloading, injecting, or using the Software, you acknowledge that you have read, understood, and agreed to be bound by the terms of this EULA. If you do not agree, you will not be granted access to the Software downloads.

2. Grant of License & Personal Use

Subject to your compliance with this EULA, Mizu grants you a non-exclusive, non-transferable, revocable, limited license to download, inject, and use the Software for the duration of your granted access.

- **Full Personal Use:** You are authorized to utilize the Software to its complete extent for personal gameplay, testing, and entertainment (subject to Section 4 for content monetization).
- **Feature Exploration:** You may access and use all available features within the client for your own gameplay and feedback purposes.

3. Restrictions & Prohibited Conduct

You expressly agree NOT to engage in any of the following activities:

- **Redistribution & Sharing:** Sharing, selling, leasing, hosting, or distributing the Software files, injection binaries, or your access token/account to any third party.
- **Reverse Engineering:** Decompiling, disassembling, decrypting, unpacking, or attempting to derive the source code or architecture of the Software.
- **Modifying & Remixing:** Editing, modifying, altering, patching, remixing, or creating derivative works of the Software code, binaries, or assets in any form.
- **Cracking & Auth Tampering:** Modifying the Software to bypass authentication checks, crack licensing mechanisms, or emulate Mizu backend infrastructure. (Note: Using general HWID spoofers for other games is permitted, provided they do not target or tamper with Mizu's authentication system).
- **Exploit Sharing:** Distributing memory dumps, offsets, or instructions aimed at defeating Mizu security or authentication measures.

4. Monetization & Content Creation

You are permitted to utilize Mizu Client while producing public content (such as YouTube videos, live streams, or social media clips) and monetizing such content, provided that:

- **Clearly Visible Credit:** You clearly and prominently credit "Mizu Client" so that viewers can easily identify it without struggling (e.g., in the video title, top of description, or on-screen).
- **Clearly Visible Discord Link:** You include an easily accessible, active invite link to the official Mizu Client Discord server (e.g., at the top of the description or in a pinned comment) so viewers can find it effortlessly.
- **No Malicious Content:** Content creation permissions do not grant the right to demonstrate, promote, or distribute cracks, reverse-engineering tutorials, or exploits targeting Mizu Client.

Failure to provide proper credit and invite links while monetizing Mizu content constitutes an immediate breach of this license.

5. Discord-Based Legal Notices & C&Ds

Access to Mizu Client is tied to your Discord account. By accepting this EULA via the Discord verification mechanism, you agree to the following terms regarding legal communications (including Cease & Desist demands and DMCA notices):

- **Electronic Service via Direct Message:** Official legal notices, copyright claims, or Cease & Desist (C&D) notices sent to your registered Discord account via Direct Message (DM) shall be deemed legally delivered upon transmission.
- **Public Server Notice (DM Fallback):** If your Direct Messages are disabled or blocked, a direct mention/ping of your Discord user account within the official Mizu Client Discord server shall constitute legally valid delivery and notification. You may not claim non-receipt due to closed DMs.

- **Persistence of Service:** Voluntarily leaving or being removed from the official Discord server after accepting this EULA does not invalidate prior acceptance nor prevent delivery of legal communications to your Discord User ID.

6. Intellectual Property Rights

Mizu Client, including all code, injection routines, graphic interface assets, brand names, and sound assets, remains the sole property of Mizu Client Management. Nothing in this EULA transfers ownership of any intellectual property to you.

7. Disclaimer of Warranties & Risk Acknowledgment

THE SOFTWARE IS PROVIDED "AS IS" AND "AS AVAILABLE" WITHOUT WARRANTIES OF ANY KIND.

- **Risk Assumption:** You acknowledge that injecting third-party utilities into game software carries inherent risks, including Minecraft account bans, server suspensions, or hardware blocks. You assume 100% of all associated risks.
- **No Liability:** Mizu Client Management shall not be held liable for any damages, account terminations, loss of data, or system crashes resulting from the use or inability to use the Software.

8. Management Discretion & Exemptions

Mizu Management (specifically users holding Administrator roles in the official Discord server) retains full authority to grant specific written exemptions or waivers to any clause of this EULA on a case-by-case basis (for example, granting special permission to an approved creator to omit credit links). Any action performed with explicit written approval from Mizu Management shall be fully authorized and will not constitute a breach of this EULA.

9. Termination & Discretionary Updates

Mizu Management reserves the right to immediately suspend or revoke your access, role, or authentication tokens at any time, with or without prior notice or cause.

We reserve the right to update this EULA at any time. Continued use of the Software or remaining in the Discord server after an updated EULA is published constitutes full acceptance of the revised terms.
